

TRANSPORTATION ENGINEERS

Bunt & Associates

Bunt & Associates is an employee owned Western Canadian transportation planning and traffic engineering consultant; our purpose is to provide enterprising solutions to transportation planning and traffic engineering problems, to contribute to building connected and sustainable communities, and to support our clients in reaching their project goals. Bunt & Associates is a true specialist consultant, providing services related to transportation exclusively.

Role & Responsibilities

We are seeking Transportation EITs/Engineers for our downtown Vancouver office, with experience in Traffic and Transportation engineering analysis and design. Candidates will lead or support a variety of public and private sector traffic engineering and planning projects including:

- Travel Data Collection;
- Travel & Parking Demand Forecasting;
- Traffic Operational Analysis & Micro-simulation;
- Traffic & Parking Impact Assessments;
- Site Plan Development;
- Community & Area Planning;
- Master Transportation Plans;
- Master Parking Plans;
- Road Safety Reviews & Audits;
- Travel Demand Management Plans;
- Conceptual and Functional Design of Transportation Infrastructure; and,
- Land Development Approval Support & Public Consultation;

Those with proven skills in the use of Synchro/SimTraffic, VISTRO, VISUM and VISSIM, plus ArcGIS and CAD will have an advantage.

Applicants will also be expected to prepare professional services proposals, mentor/train junior staff and be involved in business development activities. Candidates must be comfortable making public presentations, have experience in project management of small to mid-sized projects and a demonstrated success rate in delivery quality reports and designs. Strong verbal and written communication skills are essential for this position.

Qualifications & Experience

Candidates will have a B.A.Sc. in Civil Engineering, be registered as an EIT or P.Eng, or be eligible for registration in BC, and have at least 2 years of relevant experience that includes progressive development in technical, project management and business development in traffic engineering and transportation planning.

Compensation

Your salary would be commensurate with your experience, qualifications and skills. In addition to salary, we offer an annual performance bonus based on company profitability and individual performance, and a competitive benefits package.

Contact

Please email your resume, references, and cover letter to info@bunteng.com.

We thank all interested candidates; however only short-listed candidates will receive a response.
